Demolitions in 2023

Since the beginning of the war on Gaza, the tragic conditions have worsened drastically, turning the reality of Gaza into a human genocide and catastrophe. The occupation is targeting all Gaza including civilians, roads, infrastructure, hospitals, places of worship, residential areas, refugee centers, power stations, water and sewage networks. The destruction and the forced displacement included the West Bank and Jerusalem not only Gaza, where during 2023, the occupation demolished 70,230 structures belonging to Palestinians, including 69,595 homes and 635 other non-residential structures. As a result, at least 2,003,269 Palestinians were displaced from their homes, including 779,429 children and 356,177 women.
